

RELIANT MOLDING

Why you should give your most demanding job to a molder you don't know.

You always have at least one molded part that's a bear. Exacting specs. Touchy material. Tight turnaround. You can't trust it to just any company. In fact, your current supplier is having trouble with the part. Your problem job calls for a plastics molder with experience, technical knowledge and flexibility. That's why you need Reliant Molding.

It's OK if you don't know us. One visit, and you'll see we have the capacity to handle your toughest job. Our customers trust us for their most difficult projects. Work with us, and you'll understand why you can trust us with your problem job.

The services you need, plus a few extras.

Reliant provides the full range of services you'd expect from a plastics molder, including maintaining your tooling. We can help even if you need services, like assembly-line packing and kitting, that most molders don't provide.

Injection molding	Product and mold design, build and repair
Insert molding	Mold prototypes
Over molding	Inspection
Assembly & kitting	
Decorating	

They're an excellent molder with decent pricing. And they are very accommodating, changing the schedule according to my needs and managing inventories. If I need sampling done, they'll do it. They understand our business.

— Purchasing agent, children's products manufacturer

Industry know-how.

If your project calls for an understanding of your business, you can rest assured knowing Reliant has worked in a variety of industries over the past two decades. We know the industries below particularly well, so we can get your job done to your exact specifications.

Lawn & garden	Appliance
Safety products	Youth products
Retail POP	Consumer durables
Medical	

Machines, materials and what we do with them.

Reliant molds parts from the smallest fasteners to parts up to 48" long. Our experience with a variety of materials and our fully equipped shop ensure that your project comes in on time and on budget. If you request it, we'll even guarantee the number of shots we can produce from new tooling.

Reliant's management team is conscientious -- they worry about products failing the same way I would. They also like to tackle the difficult problems. That's hard to find. Reliant does a good job for us. Their pricing's good. They don't complain if there's a problem; they just get the job done.

— Product engineer, outdoor products manufacturer

There's no processing question that Reliant won't answer. Their quote sheets don't hide anything. In our industry, to get the business, you need to deliver as quickly as possible. Reliant works hard on getting our parts run and getting them here. They rate the highest in all our rating categories.

— Product engineer, point-of-purchase display products

I can call Reliant today and have a press start tomorrow on a product that I need immediately—I've never been disappointed. They have top-notch customer service. They tell me what they can do for me, not what they can't do. Negotiations are always open. It just seems as though they can't do enough for customers.

— Purchasing manager, point-of-purchase display products

Materials

- Engineering-grade resins: nylon, PC, PVC "rigid and flexible," ABS, PPS, SAN, Acetal, LCP
- Other specialized materials that require precise handling
- Most commodity resins — HDPE, PP, LDPE, LLDPE, HIPS, and more (in stock)

Equipment

- 25 presses, from 50 tons to 600 tons (including a 40 ton vertical molding machine)
- Tool room
- Assembly equipment, from sonic welders and bag sealers to hot stampers and shrink wrapping
- Widely varied inspection and auxiliary equipment

People you can count on.

Among our management staff, we have more than 75 years of experience in all phases of plastic molding. We'll act as an integral part of your team to make sure we understand what you need. And if you have a question once your job is running, our customer service folks will respond as if your call is the only call they've had all day.

Call us today to discuss handing over your problem job. **(888) 4MOLDING.**
